

SCREEN REPORTS FOR LIFERAY PORTALS

DISPLAY DATA - AND JUST WORK WITH IT.

Get out Liferay data and interact: No programming or database skills required.

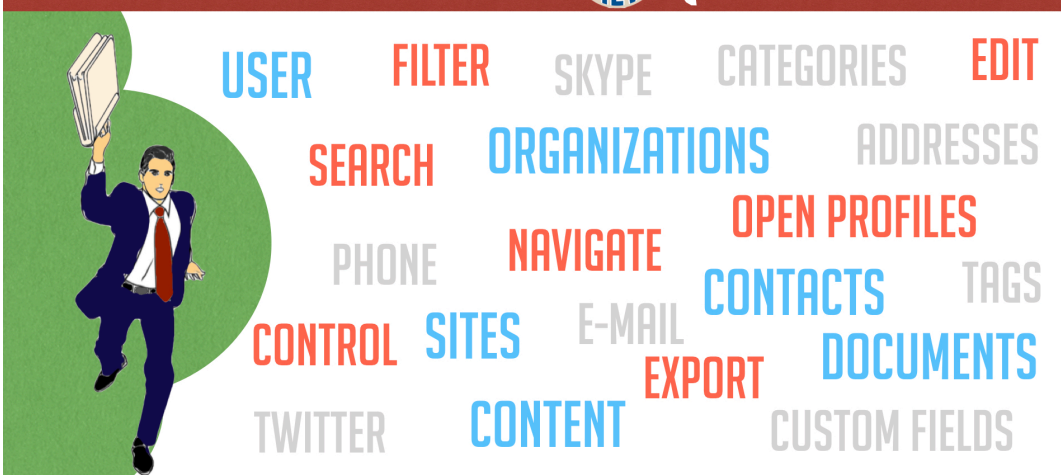

Create screen reports within a blink-of-an-eye. Drag fields from data catalog to the definition container, modify properties, save, ready!

Data will be presented as datatable which provides search, multi sort, filter and export to Excel and clipboard.

EasyView is embeddable multiple times on a page, excellent as data dashboard. In some cases, instances are linkable.

DISPLAY LIFERAY DATA QUICK AND EASY

EASYVIEW: DATA DASHBOARD FOR YOUR LIFERAY-PORTAL

FEATURES

DATA CATALOG

User, Contacts, Departments, Groups, Web-Content, Documents and more.

CONFIGURATION

Report and Column-Titles, Field Properties (like Pre-Filter, Sortability), Styles, Linking Reports and more.

ACTION

Links to edit users, organisations and more. Linked reports. Write a mail, chat on Skype, phone call, open profiles. Link reports.

USE CASES

Data dashboard, intranet pages, checklists with links for data maintenance and much more.

1 DO IT YOURSELF

Admins and users create reports themselves. Avoid external costs or blocking other internal resources.

2 SHARE

Share reports with other individuals or groups. Place them to intra-, extra- or internet pages.

3 REUSE DATA

Liferay data will be reused in many ways. Get the most out of your portal.

EASYVIEW FOR ALMOST ANY CASES!

From a birthday list to membership reports. There are numberless use cases for EasyView. Find 21 online examples on horiworld.com.

You will find examples how to integrate and link multiple instances of *EasyView* on one page. Also an example to link ORX (organization chart tool) with an EasyView members list. I divided the different examples into such for the front-end and others for administration.

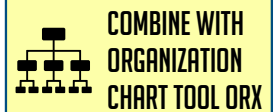

Various fields provides interaction: A click on a mail address composes a new addressed message, on Skype establishes chat or opens a user's or department's profile page. There are also edit links for direct data maintenance in the control panel.

Get inspired!

REPORTS IN SECONDS.

Not only the creation, but also to work with reports is very efficient:

- Search displays results while typing.
- Multi-sort columns.
- Filter content by selection.
- There is also an export feature (for your contacts as example).

Link EasyView with organization chart tool ORX and you get a complete enterprise navigation system.

AVAILABILITY

- Liferay 7.0 CE/DXP
- Liferay 7.1 CE/DXP
- Liferay 7.2 soon

LANGUAGES

- User Interface and Configuration
 - English/German
 - Others on demand
- Localization of report and column titles in all available languages.

PRICES

BASED ON NUMBER OF REGISTERED USERS IN LIFERAY.

Users	€	\$	*Subscription/Year
100	1.000	1.100	25%
